

EASY, COST EFFECTIVE TRACKING FOR YOUR FAMILY OR BUSINESS USING A SMARTPHONE OR COMPUTER!

KEY FEATURES

DEVICES

TRAC>DOWN supports most protocols and GPS Tracking Devices in the market.

INTERFACE

Modern fully-featured web interface with both desktop and mobile-friendly layouts. We also provide native mobile apps for Android and iOS platforms.

LIVE TRACKING

TRAC>DOWN enables you to view your GPS devices in real-time, with no delay. We offer various mapping options, including road maps and satellite imagery. Our large capacity server manages a wide variety of sensors and additional information supplied via GPS units.

ALERTS

Our software provides you with instant web notifications or email and SMS reports. Warning you immediately of important issue including harsh driving behaviour, speeding and excessive fuel and maintenance events, geo-fencing, and many other types of alerts.

REPORTING / HISTORY / PLAYBACK

Simple location history, trip, chart, and summary reports. You can view data directly on the web or mobile app and export and download an Excel file. History can also be projected on the map providing a detailed visual representation.

If you have a tracking solution requirement that requires an affordable and technically advanced software application then TRAC>DOWN is now your option of choice. Simple to operate via the TRAC>DOWN website or a quickly installed app it is available for both iPhones and android mobile phones.

VEHICLE TRACKING UNITS

We can provide fitted hard wired/magnetic solutions or supply only with full instructions for quick installation into all types of vehicles. Getting operational couldn't be simpler - insert a Sim card of your choice, supply us with that mobile number and it is instantly uploaded onto the TRAC>DOWN website. We then issue you with a secure personal password and login details and then you are good to go! TRAC>DOWN is cost effective and very affordable with each unit based on a free 1-year subscription.

USING SMARTPHONE TRACKING

Once connected to any mobile network our unique software allows you to track and pinpoint the precise location of the smartphone in question - anywhere in the world! The TRAC>DOWN app provides you with many other benefits including checking the location history of each device through to operating in the background without any indication of running - it automatically operates every time that the phone is restarted without giving any tell-tale notifications on the unit.

Simply purchase the 1 year subscription for each device then we will send you full instructions on how to download the app, and get started right away.

CUSTOMISING THE SYSTEM

If you require a specific set up, or have an application in mind you think TRAC>DOWN could help with - why not give us a call and we will see if we have a solution for you!
